Casuals and Accidentals

Great Cormorant	Tennessee Warbler	Rose-breasted Grosbeak
Sandhill Crane	Bay-breasted Warbler	Clay-colored Sparrow

*When the date is not taken from South Carolina Bird Life the authority is given.

Migration Notes

Due to Mr. Williams' illness and death we have been obliged to abandon publishing our semi-annual records of early arrival and late departure of spring and fall migrants. We expect to set up a similar method of recording these dates before too long, so please hold on to any records you may have.

BILLS !!!

Here's that ugly word again!. With this issue you will receive bills for next year's dues, regretfully \$2.00 each instead of \$1.00 as in the past. A few members have not paid 1965-1966 dues. They will be kept on the books until December. After that we will assume that they wish to withdraw from the Society and their names will be dropped from the mailing list. So, please pay up. We don't want to lose you. Send your remittance to I.S.H. Metcalf, 806 Condon Dr., Battery Point, Charleston or bring it with you to the meeting.

Sky-Watcher's Guide

Through no fault of our faithful sky-watcher, Miss Elizabeth Simons, our skies were vacant in September. Your editor, knowing she would be out of town most of August, took time by the forelock and wrote, processed and got ready for mailing the September Squawk before she left. Miss Simons, coming back from vacation, prepared her September skies and mailed it in plenty of time, but, alas, the editor's mail was held for her at the post office until the 30th. and on that date also the editor, feeling very virtuous, put the carefully prepared issue in the mail. Hence no September skies. October will also be blank sky-wise as pressure of work will prevent Miss Simons preparing one before another temporary absence of the editor. Our apologies, please.

Programs and Trips.

On the next page you will find the full schedule of next year's activities. The executive committee believes that we have a most interesting program for the coming year.

Our schedule is printed in advance in order that you may pick out those programs and trips which appeal to you most. Mark the dates on your calendar and come to as many as you can. The place and time of departure for each trip will be printed in the Squawk of the month of the particular trip.

PROGRAMS AND TRIPS 1966-1967

1966

Sept. 15 Executive Meeting.

Oct. 11 Regular Meeting. Birds with color slides. Speaker Stanley Langston
Oct. 16 (Sun.) Short Trip - Wallace Pond - Sauldam Church Road. Leader Coleman

April 29 (Sat.) Spring Bird Count

May 9 Annual Meeting - election of officers. Speaker to be announced.
May 14 (Sun.) Short trip to Metcalf place 'Landsend' John's Island.

June 13 Ex. Com. Meeting

"GREAT SOARING BIRDS"

This summer while re-reading some of Herbert R. Sass' little nature gems, in two of them entitled Great Soaring Birds and Sea Island Magic, I came across the following paragraphs. Read them and weep!

"Here in the Low Country is a sky alive not only with shifting shapes of cloud, but also with big birds +++++

Up from the marsh close to our boat, rose suddenly a large flock of ibises +++++ a cloud of great long-necked birds, 50 of them in all, as big as geese and far more beautiful despite their grotesque naked necks and heavy bills, +++++ That was only the first flock of many +++++ for forty miles or so there was scarcely a minute when there were no ibis in sight."

Alas, who has seen even one Wood Ibis lately?

Since preparing the above paragraphs I have had a report from John Metcalf of a flock of about 50 Wood Ibis which he saw on a creek on James Island the last part of August, and Ted Beckett also reports that he has seen small flocks on John's Island and Bulls each time he has gone there throughout the summer, so perhaps they are making a comeback.

By-the-way, those of you who have never read any of Mr. Sass' delightful stories in three volumes, The Way of the Wild, Adventures in Green Places and On the Wings Of a Bird, now unfortunately out of print, have missed some of the most beautiful tales of nature.

W.M.C.

Most grateful thanks to my daughter-in-law, Mrs. Teague Coleman for cutting the stencils for this issue and thus enabling me to get it out nearly on time. Any mistakes are mine, not hers.
